

# Kyushu University Ito Clinic

It is a familiar clinic where not only students and faculty staff who commute to Ito Campus, but also local residents, can feel free to visit. No referral letter is needed, so please feel free to visit us.

We have a general internal medicine department to treat routine acute illnesses such as colds, stomachaches, and diarrhea, as well as lifestyle-related diseases, and a psychiatry department to treat mental and physical disorders caused by stress and other factors.

## Internal medicine

- Common problems in internal medicine such as cold, stomachache, vomit, diarrhea, rash, etc
- Chronic diseases such as high blood pressure, diabetes, hyperlipemia and hyperuricemia
- Medication for allergic rhinitis, asthma, constipation, etc
- Vaccination (influenza, meningococcus, etc)

## Psychiatry

- Headache, malaise, loss of appetite, etc due to stress and sleep disorders
- Common mental diseases such as adjustment disorder, depression, anxiety disorder
